

Members:

***Please present this letter containing important provider information and your Membership Identification Card to the receptionist at your participating provider's office.
Thank You.***

Dear Provider:

Careington International Corporation is a customer with Three Rivers Provider Network (TRPN). Please take a moment to read some important information about the Physician Access Program being presented to you. The member is entitled to receive the negotiated rate agreed upon through your preferred provider contract with TRPN. **This program includes access to TRPN physicians and ancillary providers.**

To determine the amount payable to you, call Careington International, the administrator of this member's plan at 1-888-335-8222.

For physician charges, the savings will be calculated and stated over the phone, and the patient will pay the negotiated rate at the time of service.

You can expect the following from Physician Access Program patients:

- 100% direction to TRPN participating providers
- Payment at the time of service or the discount does not apply
- Access to a toll free number to receive information on the negotiated rate
- Increased patient volume from this popular plan

There are no forms to submit or restrictions. **This is not a health insurance policy**, and you cannot bill TRPN or Careington International for any portion of your fees.

If you have any questions about the plan, please contact Careington International at 1-888-335-8222.

If you have any questions about the TRPN Network, please contact TRPN Provider Relations at 1-619-230-6616.
